

Michael Gregoire

Senior Design Engineer

✉ mike@blocsonic.com 📞 (207) 838-6725 🔗 LinkedIn 📁 Portfolio 📍 Old Orchard Beach, Maine

Senior Designer & Engineer who has been riding that intersection since the start. Combining years of hands-on design for print and web media with an equal dose of engineering experience. Believes that great product design is accessible.

Experience

CSS/Clarest Health *(Buffalo, NY — Remote)*

Senior UX Engineer (Feb 2022 - Apr 2026)

Led UX strategy for Clarest's Medication Therapy Management platform — from design audit to full design system and component library. Partnered cross-functionally to improve clinical workflows through Vue migration.

Liberty Mutual *(Portsmouth, NH — Hybrid)*

Software Engineer (Apr 2017 - Feb 2022)

Served as a full stack developer on the LibertyMutual.com agile team, building across HTML, React, CSS/Sass, and YAML. Partnered cross-functionally with UX on research, personas, and journey maps, and with Product on SEO and A/B testing strategy.

Change Healthcare *(Augusta, ME — Hybrid)*

Web Designer/Developer (Sep 2006 - Feb 2017)

Led web design for Change Healthcare (formerly GHS) — redesigning ghsinc.com, the Med-Management app, and migrating from WebGUI to Drupal CMS.

blocSonic.com *(Portland, ME)*

Founder, Designer & Developer (Jan 2007 - Current)

Founded blocSonic to elevate Creative Commons music; creates release art and liner notes, designed/developed a YAML-driven Astro/React website, and manages the label's everyday activities.

Chuck D / Public Enemy

Print/Web Designer & Developer (2001 - Current)

Visual designer and web developer behind album packaging design for a number of Public Enemy releases and Chuck D's Slamjamz/SpitSlam rosters, with ongoing website design, development, and maintenance of various web media sites.

Education

Graphic Design Major, Maine College of Art, Portland, Maine

Figma, HTML,
CSS/Sass, Javascript,
Vue, React, Astro,
Storybook, PHP,
Illustrator Scripting,
Claude Design,
Claude Code,
Design.md, SQL, Git

References

Jason Goetz

Manager of Software Engineering, Clareast Health (2017 - Current)

"I had the pleasure of managing Mike as a Senior UI/UX Design Engineer at Clareast Health for over four years. One of his most significant contributions was leading the creation of a unified design system for our enterprise application, replacing what had been a disjointed interface with hundreds of inconsistent colors, patterns and styles. He built accessibility into the foundation of that system from day one, not as an afterthought. Mike consistently ran with projects independently, from meeting with end users and stakeholders to delivering solutions that balanced usability best practices with real business and engineering constraints. He handled multiple efforts simultaneously and could pivot quickly when priorities shifted.

Mike also partnered with engineering, product and our internal users to redesign several high volume core workflows. These were areas our users spent significant time in every day, and his work streamlined the experience to the point where we measured a greater than 50% reduction in time spent on key tasks without sacrificing effectiveness. Any team would be fortunate to have him."

Miklos Van Halen

Chief Technology Officer, CSS (2021 - 2024)

"In working with Mike for over a decade - five of those as his manager and then as CTO when I hired him at CSS - he has consistently delivered a high quality work product, with quick turnaround. I was also able to rely on Mike to work directly with clients, both internal and external, confident that the job would get done right, with happy customers in the end. Additionally, Mike proactively stayed on top of new technology and changing trends in the space, evaluated new options, and provided sound recommendations for future direction. Overall a true professional."
